ABOUT

After 10 years in academia working on developing tools and applying sophisticated analytical approaches to identify biological markers that contribute to disease, I am now looking to apply my expertise toward translating research into solutions that lead to optimal life outcomes, in particular in personalized medicine domain.

EXPERIENCE

Postdoctoral Research Fellow

McGill University

2021 – Present | Montreal, Canada

- Advisor: Prof. Boris C. Bernhardt
- **Processed and modeled multi-modal neuroimaging data** to identify **early predictors of mental illness in large-scale dataset** (N>10,000) with unsupervised **machine learning**
- Processed and modeled **connectivity alterations and genetic risk markers** for autism
- Processed and modeled **sleep, cognitive, clinical and lifestyle data** in healthy population
- **Published 5 peer-reviewed articles**
- **Mentored 3 students**

Postdoctoral Research Fellow

National University of Singapore

2017 – 2020 | Singapore

- Advisor: Prof. B.T. Thomas Yeo
- **Processed and modeled neuroimaging data** to identify **shared disease markers** across psychiatric disorders with unsupervised **machine learning**
- **Taught a course on unsupervised machine learning** at the Organization for Human Brain Mapping Annual Meeting
- **Co-organized a neuroscience conference and a hackathon** with >200 attendees
- **Co-developed an open source toolbox**
- **Published 4 peer-reviewed articles** (2 first-authored)

PhD Candidate

University of Geneva

2012 – 2016 | Geneva, Switzerland

- **Processed and modeled neuroimaging data for early diagnosis of Alzheimer's disease** using supervised **machine learning**
- **Collected clinical data and brain images** in >100 elderly individuals at risk for Alzheimer's disease
- **Published 5 peer-reviewed articles** (2 first-authored)
- **Mentored 2 students**

EDUCATION

Ph.D. in Neuroscience

University of Geneva

2012 – 2016 | Geneva, Switzerland

- Advisors: Prof. Dimitri Van De Ville and Prof. Frédéric Assal
- Thesis: Functional imaging markers of the MCI brain in task and at rest: detecting memory and connectivity impairments in prodromal Alzheimer's disease
- Keywords: neuroimaging, machine learning, prediction, biomarker development

M.Sc. in Clinical Neuroscience

University College London

2009 – 2010 | London, United Kingdom

- Advisor: Prof. David J. Werring
- Thesis: Neuroimaging correlates of vascular cognitive impairment: prevalence and functional significance of mesial temporal lobe atrophy
- Keywords: neuroimaging, stroke, cognition, radiological marker

B.Sc. in Psychology

University of Geneva

2006 – 2009 | Geneva, Switzerland

SKILLS

Python | scikit-learn | TensorFlow | R | Bash | MATLAB | Git/Github

machine learning | deep learning | big data | multi-modal MRI | scientific research | scientific software development | data processing | data mining | data visualization

SELECTED HONORS AND AWARDS

2013-2020 - Speaker at international conferences (SfN; Organization for Human Brain Mapping Annual Meeting; Whistler Workshop on Brain Functional Organization, Connectivity and Behavior; International Workshop on Pattern Recognition in Neuroimaging)

2012-2022 - Travel awards from the Quebec Bio-Imaging Network, Swiss National Science Foundation, Jean-Falk Vairant Foundation, and Lemanic Neuroscience Doctoral School to attend international conferences

2022 - Jeanne Timmins Costello Fellowship from the Montreal Neurological Institute (**40'000 CAD**) for the project *"A multi-modal and dimensional approach to study typical and atypical neurodevelopment"*

2021 - Finalist for Somerfeld-Ziskind Research Award, which recognizes outstanding research investigations in biological psychiatry

2021 - Quebec Autism Research Training Fellowship from the Transforming Autism Care Consortium (**40'000 CAD**) for the project *"Neurodevelopmental subtypes informed by hierarchical brain network features"*

2016 - Project grant from the Boninchi Foundation (**75'000 CHF**) for the project *"A multimodal marker to predict the progression to Alzheimer's disease"*

2015 - Scholarship (**10'000 CHF**) from the Association Suisse des Femmes Diplômées des Universités

2013 - Travel Mobility Grant (**11'600 CHF**) from the Swiss National Science Foundation to visit the Functional Imaging in Neuropsychiatric Disorders Lab, Stanford University, Stanford, CA, USA (6 months)
